Classroom in a Book

The fastest, easiest, most comprehensive way to master Adobe software!

by Adobe Creative Staff

Classroom in a Book, the world's best-selling series of hands-on software training workbooks, offers complete self-paced training based on real-world projects. Practical, focused lessons are designed to fit into busy schedules and help you learn the features of Adobe software quickly and easily. Books include intermediate and advanced techniques for both Windows and Macintosh. Use the specially created files on the CD-ROM as you work through the lessons and special projects in the book. Illustrations show you what you'll achieve on-screen using your Adobe software.

Translated into French, German, Japanese, Spanish, Italian, Greek, and Korean, the Classroom in a Book series is used by professional training companies, universities, corporations, and businesses around the world to teach users how to master the latest features of Adobe's powerful applications.

The Official Adobe Print Publishing Guide

edited by Leonard Cottrell

This book provides succinct, expertly illustrated explanations of the basic concepts and issues involved in print production, along with Adobe's tried and true guidelines, tips, and checklists for ensuring a successful print job.

ISBN: 1-56830-468-4, US \$35, 230 pages

The Official Adobe Electronic Publishing Guide

edited by Barbara Assadi

Why does the color in that printed image look so different online? Why is electronic type fuzzy, broken, or hard to read? Using simple, expertly-illustrated explanations, the design and publishing pros at Adobe tell you how to design electronic publications for maximum speed, legibility, and effectiveness.

ISBN: 1-56830-469-2, US \$35, 216 pages

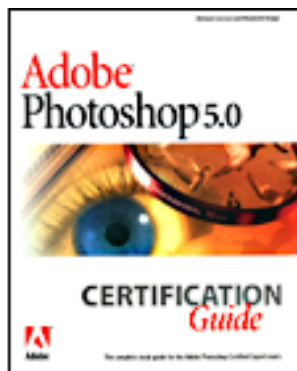

Adobe Photoshop 5.0 Productivity Kit

by Adobe Creative Staff

Twenty-six ready-made projects include 125 professionally-designed Photoshop, ImageReady, and PageMaker templates, backgrounds, and actions. You'll learn how to apply special effects and techniques like quick masks, beveling, and embossing. Expert tips will help you capture attention with your design, choose the right fonts and paper stock, and ensure high-quality printed and Web images.

ISBN: 1-56830-464-1, US \$39.99, 190 pages, CD included

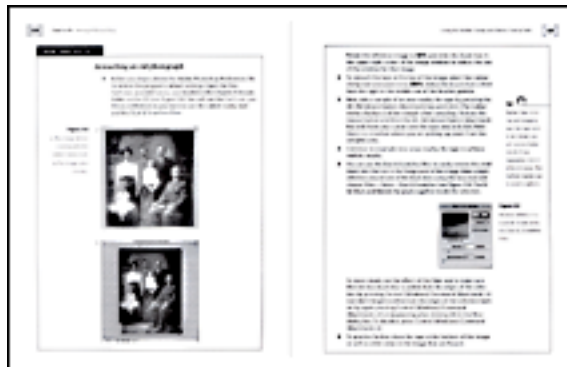

Adobe Photoshop 5.0 Certification Guide

by Michael Lennox and Elizabeth Bulger

Now you can have your software skills tested and your expertise acknowledged — and certified — through the Adobe Certified Expert (ACE) program. The Adobe Certification Team has developed this complete study guide, including ACE practice exams for you to work through before you take the exam.

ISBN: 1-56830-473-0, US \$45, 592 pages, CD included

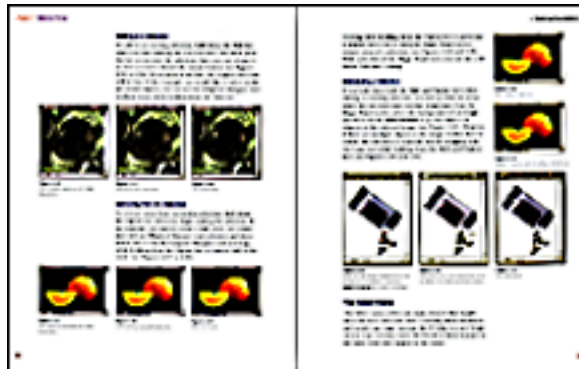

Adobe Photoshop 5.0 Studio Techniques

by Ben Willmore

A complete guide to mastering Photoshop, along with the insight and information that will help you truly appreciate this powerful software.

ISBN: 1-56830-474-9, US \$39.99, 456 pages

Guerrilla Marketing with Adobe PhotoDeluxe® Business Edition

by Kate O'Day, Linda Tapscott, et al

Create a complete marketing plan that fits your goals and budget. Learn the secrets of effective, innovative marketing strategies. Then put these concepts to work to produce compelling marketing materials with the included Adobe PhotoDeluxe Business Edition (for Windows) software, business templates, fonts, and sample photos.

ISBN: 1-56830-486-2, US \$59.99, 288 pages, CD included

Stop Stealing Sheep

by Erik Spiekermann and E.M. Ginger

The most acclaimed, rewarding, and lively guidebook to the world of type and design published today. It includes common sense explanations of what type is and how to use it to your advantage.

ISBN: 0-672-48543-5, US \$20, 274 pages

Branding with Type

by Stepen Röegenr, Albert Jan-Pool, and Ursula Packhäuser

This book reasserts what communication veterans have known for decades — type sells, be it a magazine ad, an Internet site, or a billboard. Translated from an original German edition, *Branding with Type* examines and chronicles the branding powers of type.

ISBN: 1-56830-248-7, US \$18, 128 pages

Web Sites That Work

by Roger Black, with Sean Elder

By celebrated designer Roger Black, with Sean Elder, Web reviewer for *The New Yorker*, this book brings Black's extensive experience in design to the competitive arena of the Web. Aimed at site creators, graphic designers, corporate managers, and advertising agencies, this book combines a sophisticated aesthetic with a practical approach to understanding the Web.

ISBN: 1-56830-346-7, US \$45, 240 pages

Interactivity by Design

by Amy Satran and Ray Kristof

Concentrating on what's unique about designing for the computer screen, this book gives communicators with or without experience in new media a foundation for designing interactive products.

ISBN: 1-56830-221-5, US \$40, 144 pages

From Paper to Web *How to Make Information Instantly Accessible*

by Tony McKinley

Focusing on Adobe Acrobat's unique ability to merge the worlds of paper documents and Web communication, this book covers the process and issues involved in building digital libraries.

ISBN: 1-56830-345-9, US \$45, 312 pages

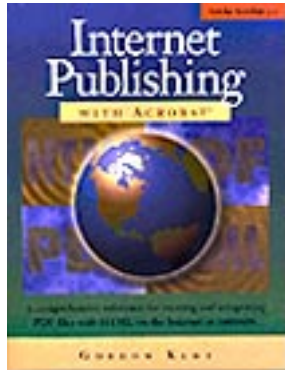

Forms: Interactivity for the World Wide Web

by Malcolm Guthrie

Learn how to create Web-based forms that are as clear and intuitive as their paper counterparts. Creative designers, IS practitioners, and programmers alike will benefit from visuals, code, and step-by-step instructions on implementing digital forms in HTML and PDF.

ISBN: 1-56830-455-2, US \$50, 701 pages

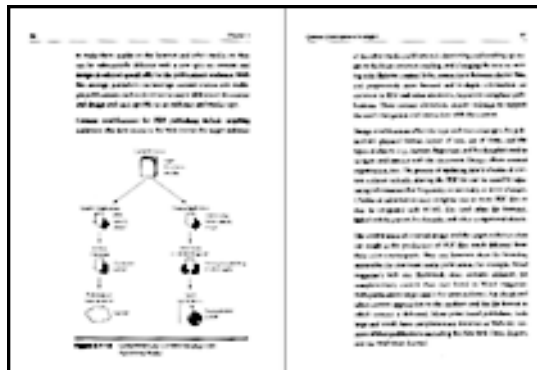

Internet Publishing with Acrobat

by Gordon Kent

This book provides all the information you need on PDF and Adobe Acrobat 3 to decide when and how to use PDF on your Web sites.

ISBN: 1-56830-300-9, US \$40, 408 pages

Web Page Design

by Lisa Lopuck and Sheryl Hampton

This book is a portable seminar on Web page design taught by experienced professionals. It documents Adobe software such as Adobe Photoshop 4, Adobe Illustrator 7, and Adobe PageMill 2, as well as the latest HTML language protocols.

ISBN: 1-56830-426-9, US \$40, 264 pages, CD included

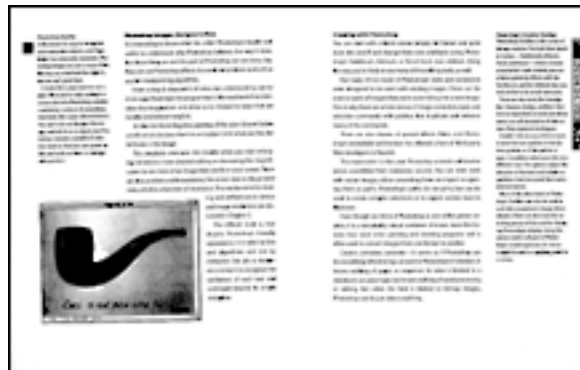

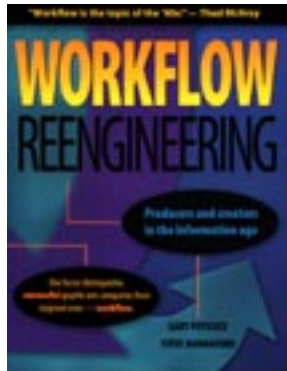

Drag & Drop Design

by Clay Andres

This book shows how graphic designers can use the drag-and-drop file-sharing capability of Adobe's flagship applications — Photoshop, Illustrator, PageMaker, PageMill, and Acrobat — to multiply their powers and create astonishing work.

ISBN: 1-56830-427-7, US \$40, 316 pages

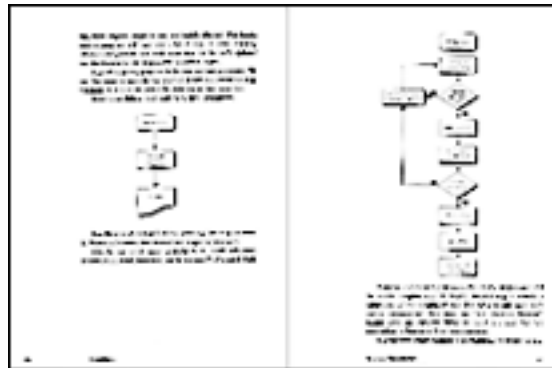

Workflow Reengineering

by Gary Poyssick and Steve Hannaford

Workflow Reengineering focuses on how workflow improvements, not new machines and more RAM, can improve quality, increase productivity, and raise profitability from 3 to 40 percent.

ISBN: 1-56830-265-7, US \$30, 274 pages

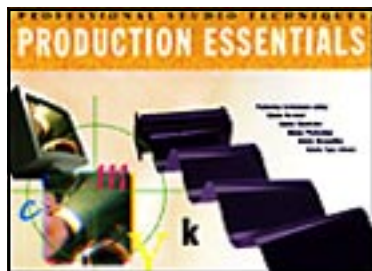

Design Essentials

by Luanne Seymour Cohen

A one-of-a-kind cookbook of classic design techniques using Photoshop, Illustrator, and other Adobe products. Concise two-page spreads allow users to access the information quickly, easily, and with step-by-step graphics and text. The original *Design Essentials* volume sold well over 100,000 copies in English, Japanese, and French.

ISBN: 1-56830-472-2 , US\$40, 122 pages, available in May

Production Essentials

by Diane Tapscott, Lisa Soberanis, Pat Jeans, Rita Amladi

"These lavishly illustrated books offer a wealth of information on Adobe Photoshop, Adobe Illustrator... Ideal for everyone from the earliest beginner to the most advanced professional, this is an essential library resource at any serious design studio."

— *HOW Magazine*, December 1995

"Essentials from Adobe furthers a recent trend in the industry to offer users software information (rather than hyperbole) along with relevant technical considerations."

— *On-Line Design*, March 1995

ISBN: 1-56830-124-X, US \$40, 122 pages
